QUERCUS

SERVICE BRIEF

# Conferencing and Collaboration

Technology solutions designed to improve cooperation and collaboration.

## Your Business at Your Fingertips

*On the road, out of town, or at the beach; stay connected to your business at all times.*

The modern business needs to be able to leverage their tools, resources, and network connectivity to improve its productivity. At Quercus IT, we understand that today's business is a mobile business, and we can help businesses procure communication and conferencing solutions that will allow for enhanced levels of productivity and greater inter-departmental synergy.

With a dedicated conferencing solution, your business can turn a desktop computer into a communications hub, and turn your conference room into a living, breathing productivity center. With the integration of cloud-based communication applications, you can be face-to-face with someone whether they are across the hall or across the country.

## Quercus IT Networking

*A relatively simple change to the way you go about your networking can create huge benefits for your staff.*

When you set up your organization's network, a dedicated consideration has to be made immediately: Is your wireless network working for you? Today's modern office requires a robust and dependable Wi-Fi implementation, but to improve collaboration, you need solutions that will help you leverage the power of mobile devices into higher degrees of productivity.

At Quercus IT, our certified IT professionals make a living designing, deploying, and managing modern technology solutions for organizations just like yours. From comprehensive networking to mobile device management to bandwidth consulting, our IT professionals can help you procure and manage the technology that makes your business hum.

## Modern Conferencing Options

*With modern technology, your team doesn't need to be in the same place to work together.*

Collaboration is the name of the game for many modern businesses. Quercus IT makes available the most useful communications solutions for business. Whether your business can utilize the power, speed, and affordability of a Voice over IP solution, or you need a wireless, high definition, multi-touch presentation tool with full video capabilities, Quercus IT has a solution that you can use to build cooperation and improve your organization's presentations.
